

Disability Awareness Training

2 Hour Course: £ 45 per person

You may already be aware that anyone applying for their taxi badge with a local authority must undertake this training. Greatest Expectations is the go-to for Disability Awareness Training and is recommended by Middlesbrough Council.

The objective of the course is to enable new and existing taxi drivers to develop their understanding of how to recognise and support customers with a disability, understand relevant legislation and give drivers the confidence and self-assurance to provide disabled people with an equal level of service.

Who should undertake the training? Any operator, office staff, passenger assistants or drivers who may have cause to come into contact (direct or indirect) with passengers with disabilities.

Emergency First Aid at Work

1 Day Course: £85 per person

Ensure your employees are protected and that their work environment is safe!

It is essential that organisations have trained First Aiders present in the workplace in case of potential incidents and emergencies.

Our 'First Aid at Work' course has been designed to ensure that first aid can be delivered confidently and competently, reducing the presence of workplace hazards and the risks that may arise from any health and safety incidents.
